

RICE COOKER

This compact Rice Cooker is bench mounted and has the capacity to cook for 50 servings.

Complete with piezo ignition, a cut out switch is activated when the rice is cooked. Once the rice has cooked the pilot of the unit maintains the rice at a warm temperature.

YAKITORI SATAY GRILLER

Designed for Yakitori and Satay cooking, this unit is equipped with a energy efficient infrared burner. A glass cover mounted on the top of the burner radiates the heat evenly across the cooking area. Comes with piezo ignition and stainless steel spillage tray. Mild steel brackets allow for skewers to be mounted onto for ease of cooking.
