

Freestanding Gas Fry Tops

The Elco 700HP range is comprised of over 100 models designed to guarantee the highest level of performance, reliability, energy saving, safety standards and ergonomic operation. These concepts are reflected in the total modularity of the range that ensures numerous configurations, either free-standing or bridged. Elco 700HP demonstrates how advanced technology can satisfy the needs of the professional caterer. The models detailed on this sheet are Freestanding Gas Fry Tops.

178655

EASY TO INSTALL

- Main connections can be accessed via the rear or base of the unit.

EASY TO CLEAN

- One piece pressed worktop in 1,5mm stainless steel with smooth, rounded corners.
- Front panel in stainless steel with Scotch Brite finish.
- All models have right-angled, laser cut side edges to allow flush-fitting joints between units eliminating gaps and possible dirt traps.

EASY TO USE

- Cooking surface in mild steel or chromed: available smooth or ribbed for optimum grilling results.

- The standard Fry Top cooking plate is in 15mm thick special mild steel for even temperature distribution. Ideal for grilling, browning and the radiant heat allows thicker cuts of meat to be cooked perfectly.
- The chromium surface means no absorption of cooking juices into the plate resulting in higher output of product and more flexibility. Very little energy is lost to the kitchen environment due to the reflective qualities of the chromium surface, making the work area more comfortable.
- Splashback in stainless steel included as standard.
- Cooking surface with large drain hole for fat drainage into a 3,5-lt grease collection tray, extractable from open base (for models on

base) placed under the cooking area.

- All gas appliances are supplied for use with natural gas or LPG. Conversion jets supplied as standard.
- Safety thermostat on models with thermostatic control (temperature markings in °C). Piezo ignition.
- Very fast heat-up time to maximum temperature.

EASY TO MAINTAIN

- IPX4 water protection.

EASY ON THE ENVIRONMENT

- 98% recyclable by weight.
- CFC free packaging.
