Light Duty Commercial Microwaves

Bonn Appliances Quality Guarantee

Design specifically for use in all light duty application. The CM-1031T and CM-900T are designed using reinforced stainless construction. This includes key components such as the cavity assembly, door assembly, outer cabinet and triggerless handle. Unique in design the outer stainless cabinet feature side exhaust vents. Unlike domestic design units that position exhaust vents on top of the cabinet, spilled liquid is prevented from draining into the oven componentry.

Cavity sizes range from a generous 24 litre to large 32 litre capacity. The CM-1031T offers 20 'One Touch' preset programmable menus for simple fast heating of product. Other features include motorised stirrer fan for even heating and ceramic base.

12 months parts and labour warranty. Warranty includes in house* service.

CM-1031T Specifications

CM1031T

Power Output	1000 watts (microwave)
Power Input	1450 watts
Current Required	7.6 amp (10 amp power supply) required
Voltage	240/50 Hz
Weight	18 kg
Oven Capacity	33 litres
Internal Dimensions	369W x 221H x 400D
External Dimensions	560W x 344H x 483D
Internal Construction	Stainless Steel
External Construction	Stainless Steel
Controls	Touch Control 20 Preset Programs Double Quantity Programming Manual & Program Control Variable Power Output (Defrost - High) Multiply Stage Cooking Auto Repeat Counter Check Functions Memory Lock Memory Check
Features	Single Magnetron Single Stirrer Fan

CM-900T Specifications

Power Output	900 watts (microwave)
---------------------	-----------------------

CM-900T

Power Input	1350 watts
Current Required	7.6 amp (10 amp power supply) required
Voltage	240/50 Hz
Weight	16.5 kg
Oven Capacity	24 litres
Internal Dimensions	330W x 215H x 330D
External Dimensions	510W x 300H x 400D
Internal Construction	Stainless Steel
External Construction	Stainless Steel
Controls	Touch Control Variable Power Output (10-100%)
Features	Single Magnetron Glass Turntable
