## Heavy Duty Commercial Microwaves

### Bonn Appliances Quality Guarantee

Designed and constructed to the highest of standards. The CM-1900T, CM-1300T and CM-1002T continue to provide caterers with the performance and reliability expected from the industry's leading name in Commercial Microwave Ovens. Significant advances in design and technology have made the CM-1900T, CM-1300T and CM-1002T the most advanced commercial ovens in the company's history. Increased structural strength has also made the Bonn heavy-duty range the most robust high power ovens ever to be released by the company.

The Bonn heavy-duty high power Commercial Microwave range offers caterers the choice of three models with power outputs of 1900watts, 1300watts and 1000watts. All three models

feature exactly the same technical and structural design along with parts and labour warranty's of up to 2 years. The CM-1900T offers a 1900watt power output, the most powerful compact commercial microwave oven available, while the CM-1300T offers a maximum power output of 1300watts from a 10amp power outlet.

The CM-1900T, CM-1300T & CM-1002T are supplied with a 12 month labour & 24 month parts warranty. Purchasers can upgrade this within 30 days of purchase to a full 2 year labour warranty & 2 year parts warranty at a cost of \$99 (includes GST). Warranty is in house.\*

## Control Panel

Control Panel Designed for speedy easy use, the control panel is clear and precise featuring 30 preset programs for 'one touch' heating. Other features include automatic air filter cleaning notification and self diagnostics to assist in over the phone service enquires. The ovens also log all oven running times to enable the operator/owner to monitor oven usage.

## Increased Cavity Size

The CM-1900T, CM-1300T & CM-1002T feature a large 26 litre oven capacity. By commercial standards this is approximately 20-30% greater than most traditional high power commercial microwave ovens. Width and depth have been noticeably increased to fit large dining plates and dishes.

## Bonn Heavy Duty Microwave Features

### Motorized Stirrer Fans

New motorized stirrer fans ensure that the microwave energy dispersion is even throughout the oven cavity eliminating 'cold spots' in heated foods. Unlike conventional wind driven stirrer fans, motorized stirrer fans are ceiling mounted, unlike top and bottom feed designs, fat and grease does not drain the bottom stirrer causing arching.

## Glass Door

Strengthened door construction featuring silicon sealed toughened inner door glass. Unlike clear film lined or plastic inner doors, toughened inner door glass provides easier cleaning and greater resistance against inner door burning due to dishes touching the inner door or hot splattering fat. Toughened glass also resists peeling unlike commonly used clear film sealed doors.

## Twin Light Bulbs

Increased lighting provides greater cavity illumination. 2 x 25 watt light bulbs provide twice the lighting of previous models. Bulbs are mounted in silicon to prevent damage due to door vibrations. Light bulb replacement is made easy through the bulb replacement panel.

## CM-1900T Specifications

<b>Power Output</b>	1900 watts (microwave)
<b>Power Input</b>	3200 watts
<b>Current Required</b>	14.6 amp (15 amp power supply) required
<b>Voltage</b>	240/50 Hz
<b>Weight</b>	32 kg
<b>Oven Capacity</b>	26 litres
<b>Internal Dimensions</b>	370W x 190H x 370D
<b>External Dimensions</b>	464W x 368H x 557D
<b>Internal Construction</b>	Stainless Steel

**External Construction**

Stainless Steel

**Controls**

Touch Control  
 30 Preset Programs  
 Double Quantity Programming  
 Manual & Program Control  
 Variable Power Output (10-100%)  
 Multitply Stage Cooking  
 Auto Repeat Counter  
 Check Functions  
 Memory Lock  
 Memory Check  
 Self Diagnostics & Air  
 Filter Cleaner Timer Reminder

**Features**

Twin Magnetron  
 Twin Stirrer Fan

**CM-1300T Specifications**

**Power Ouput**

1300 watts (microwave)

**Power Input**

2200 watts

**Current Required**

9.8 amp (10 amp power supply) required

**Voltage**

240/50 Hz

**Weight**

32 kg

**Oven Capacity**

26 litres

**Internal Dimensions**

370W x 190H x 370D

**External Dimensions**
